[ITCM-Transition@5sr-hsv.com](mailto:ITCM-Transition@5sr-hsv.com)

1. What is your preferred personal email?
2. What is your preferred personal phone number?
3. What is your current labor category and duty location?
4. What two letter(s) do you directly support?

\*More transition details will be provided after the protest period has expired.

### Five Stones Research Corporation (5SRC), Huntsville, Alabama 08 January 2024

The Missile Defense Agency (MDA) has reaffirmed the award of the TEAMS-Next ITCM competitive cost-plus-fixed-fee level-of-effort contract. Under this new contract, 5SRC will provide support that includes providing improved weapons systems cybersecurity through Cybersecurity Management; providing improved effectiveness of the current Department of Defense (DOD) Computer Network Defense Service Provider (CNDSP) construct in defending and protecting DOD networks; improving information cybersecurity integration into the system architecture, system life cycles, and accreditation documentation; ensuring compliance with all DOD cybersecurity policy, directives, and mandates; securing cloud-based information systems; evaluating proposed IT solutions; and identifying vulnerabilities and threat mitigations on information systems. The work will be performed in Fort Belvoir and Dahlgren, Virginia; Huntsville, Alabama; Schriever Space Force Base, Colorado; and Ft. Greely, Alaska.

5SRC and our teammates will be providing MDA support and services for Architecture & System Engineering; Executive Operations; Budget and Portfolio; Network Operations; Application and Data Management; End User Services; Unified Communication; Cyberspace Mission; Authorizing Official Team; and Defense Cyber Operations. Our team will be directly supporting the MDA CIO and stakeholder missions to ensure information management and information technology resources are acquired, managed, operated, and protected IAW Federal laws and DoD policy.

### Anticipated Timeline

Transition timelines forthcoming per protest period expirations.
